

HEALTH AND SAFETY POLICY STATEMENT

NDT Global Services Occupational Health and Safety Policy applies to all operations both at the regional office and on transient work sites.

The Directors aim to ensure, so far as is reasonably practicable, the health, safety and welfare of all employees, subcontractors and visitors at the NDT GSL premises and all those at work who may be affected by the conduct of our transient operations on customers sites. Maintain a proactive system for the monitoring of health and safety objectives and constantly reducing risk within NDT GSL.

This policy statement provides a commitment and intent to comply with the Health and Safety at Work etc. Act 1974 and BS ISO 45001:2018.

HEALTH AND SAFETY OBJECTIVES AND PRINCIPLES

NDT Global Services Ltd's Health and Safety Policy is defined and strongly driven by the following management principles and behaviours:

- To effectively communicate and ensure understanding and commitment to this policy by all personnel and making this policy available to relevant interested external parties, as appropriate. To induct personnel upon joining the company as to this Health and Safety Policy and the expectations of NDT GSL and to ensure employees are briefed/updated when policy changes are made.
- To complying with health and safety laws and regulations, collective agreement on health and safety and other requirements to which the NDT GSL subscribes.
- To fully commit to eliminate hazards and reduce risk for all persons working for or with NDT GSL by preventing: work-related injuries, ill health, disease and incidents, by assessing the risks to the safety and health of our employees and others who may be affected by our activities and implementing control to minimise those risks;
- To commit to supporting employees by providing and maintaining a safe working environment, providing the necessary training, suitable and sufficient information, instruction and supervision for our employees and sub-contractors, to ensure their competence with respect to health and safety including the handling, storage and transport of articles and substances.
- To continually improving the performance of our occupational health and safety management system by devoting the necessary resources in the form of finance, equipment, personnel, external consultancy and time to ensure the health and safety of our employees; to annually review and when necessary to revise this health and safety policy.

RESPONSIBILITY

The Directors have the overall responsibility for the Occupational Health and Safety Policy and Occupational Health and Safety Management System including formulation, development, implementation and encouraging commitment by personnel at all levels of the Company.

The HSE Manager is responsible for the co-ordination, implementation and monitoring of the policy throughout the organisation.

All employees, contractors and visitors are responsible for policy implementation by cooperating, participating and contributing to its success through their actions and suggestions.

COMMUNICATION

This Occupational Health and Safety Policy is communicated to all employees, contractors, and visitors. A copy is displayed on employee notice boards at the Head Office, held with the project manager on transient work sites and published on the internal company shared drive. All employees are encouraged to read it and communicate any queries to a Director. Copies are made available to interested parties on request and a copy is published on the company website.
